Organisers of Nigeria Oil & Gas launch new event Nigeria Oil & Gas Tech

The organizing committee behind Nigeria's most famous Oil and Gas Exhibition and Conference, NOG, are delighted to announce that they have launched a new event, Nigeria Oil & Gas Tech (NOG Tech) to cope with the increasing demand from both exhibitors and visitors. The NOG 2010 show brought in over 900 delegates, 70 sponsors, 55 speakers and 160 Exhibitors. This year's NOG Tech Exhibition will be held right in the centre of Nigeria's oil and gas industry, in Lagos' Eko Expo Centre, ensuring high visitor attendance and excellent press coverage of the event.

"May I commend the initiative of your organization in organising the upcoming NOG Tech Conference and Exhibition, an event that provides a meeting point for players in the oil & gas industry to address issues of technology and training in the industry."

Engr Muttaqha R Darma MNSE, MMNIM Executive Secretary, Petroleum Technology Development Fund (PTDF)

This unique industry-led event focuses on technology development, innovation and training within the upstream, midstream and downstream oil & gas sectors, bringing together senior decision makers, industry experts and major players involved in some of the biggest projects in the region.

NOG Tech takes place over three days and delivers an all-encompassing commercial event, comprising a two day technical conference and three day technology exhibition, providing a platform to showcase new technology products and ideas to help find solutions and identify gaps in the market.

NOG Tech's speakers include:

- Dr Emmanuel Egbogah P Eng, OON, Special adviser to the President on Petroleum Matters
- Lee Maeba JP, Senator, Federal Republic of Nigeria
- Philip Chukwu, Group Executive Director, Exploration and Production, NNPC
- Eng F A Abbiyesuku, Group Executive Director, Engineering and Technology, NNPC
- Dr Levi Ajuonuma, Group General Manager, Group Public Affairs, NNPC
- Ernest Nwapa, Group General Manager, Capacity Building & Local Content, NNPC
