Nigeria Oil & Gas Tech Hailed a success

The recently concluded oil & gas Tech (NOG Tech)event, held in Lagos was reported a success, revealing a strong demand for innovative technologies in Nigeria, increase oil production and capacity building. The two day conference gathered with over 250 delegates accompanied with exhibitions and presentations of various corporations The inaugural ceremony started with the singing of Nigerian National anthem, followed by an address from H.E. Diezani Alison-Madueke, the Honorable Minister of Petroleum Resources, who was represented by Mr. Andrew Wada Obaje, Director of the Department of Petroleum Resources.

Representatives from the Ministry, NETCO, Shell, Chevron, Russel Smith Nig.ltd., Capital Oil and Gas and the President of the Nigerian Society of Engineers, Engr. (Chief) Oluwayiwa Alade Ajibola, to mention a few graced the NOG Tech. event.

The Honorable Minister of State of the Niger Delta gave a personal address. He acknowledged his gladness about the end of the militant activities in the Delta. He also noted that technology will play a significant role in supporting the region recover and rebuild on its potentials.

The Conference sessions focused on deepwater, local content, foreign investments, emerging technologies and gas utilisation with debates and questions from the delegates and attendees. The event lived up to its "industry-led" pledge with the clear message resonating all through that, now is the time to act and invest in technology and training to make certain Nigeria remains the biggest oil producing Nation in Africa.
